ABOUT

A meticulous full-stack developer specializing in modern frameworks (Angular, Next.js, Express.js). I design and deploy high-performance, scalable web applications while ensuring compliance with security and optimization standards and prioritizing the user experience.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Next.js, Angular, Tailwind CSS

Backend: Node.js, Express.js, Django

Databases & Backend Services: MongoDB, PostgreSQL, MySQL, Supabase

Blockchain/Web3: MetaMask, Blockchain-based applications

Design & CMS: Figma, Photoshop, Illustrator, WordPress, Canva

SOFT SKILLS

- Teamwork and collaboration
- Attention to detail
- Time management
- Problem solving
- Communication
- Adaptability and continuous learning

WORK EXPERIENCE

Full Stack/Web Developer (Full-Time)

RHOPENLABS | Douala, Cameroon | 04/2025 – Present

Reference: AGUEKING ARLINE DUBOIS, Senior Full Stack Developer, RHOPENLABS (T: +237 695 40 45 27)

Frontend Developer | Next.js | KitabuDev | 04/2025 – Present

- Designed and delivered 6 role-based interfaces for authors, actors, and administrators in a publishing workflow.
- Built wallet-enabled contribution flows that let users submit book content through MetaMask.
- Maintained and refined frontend features for a blockchain-based publishing platform.

Full Stack Developer | Angular, Express.js, MongoDB | IFP | 11/2025 – 01/2026

- Designed the IFP homepage and streamlined the user registration experience.
- Built a certificate verification interface that enabled quick scanning and validation.
- Created administrative tools for training program setup, user management, and platform oversight.
- Implemented a review workflow to assess and validate applications efficiently.

Frontend Developer (Volunteer Contributor)

Google Developer Groups (GDG) | Douala, Cameroon | 06/2025 – Present

Frontend Developer | Angular | GDG Event Platform (2026 Annual Edition) | 07/2026 – 08/2026

- Crafted the complete homepage experience across layers 00–05 for a polished event presence.
- Shaped the 2026 edition landing page with the theme, manifesto, and key figures.
- Built speaker profiles and directory pages to improve discoverability and engagement.
- Designed a filterable multi-room agenda and dedicated session pages for attendees.

Frontend Developer | Angular | GDG Event Marketplace (2025 Annual Edition) | 08/2025 – 09/2025

- Created the event marketplace for the GDG 2025 edition, improving access to sessions and offers.

PERSONAL EXPERIENCE

Christmas Three | Full-Stack Web Application (Next.js, Supabase, PostgreSQL)

- Built a full-stack greeting card platform with secure authentication and dynamic database interactions.
- Link: christmass-three.vercel.app

Restaurant Management Platform | Full-Stack Web App (Django, PostgreSQL)

- Architected a restaurant management system covering menu operations, ordering flows, and data persistence.
- Link: restaurant-sigma-liart.vercel.app

Lingerie Luxe | E-commerce Frontend (Next.js, Tailwind CSS)

- Designed and implemented a modern, high-end e-commerce user interface focusing on responsive layout and smooth shopping experience.
- Link: lingerieluxe.vercel.app

Peer Portfolios & Client Projects | Frontend Developer (Next.js/Django)

- Created custom, professional portfolio websites for peers and colleagues to showcase their personal branding and professional achievements.
- Link: salem-kaweina.vercel.app | portofoliogustave.vercel.app
